FASTBIND ONDEMATIC

PREPARE AND FINISH YOUR COVERS

DOUBLE CREASING TWO SIDES

ON-DEMAND ENVIRONMENT

BUILT-IN ELECTRIC TRIMMER

FASTBIND ONDEMATIC

SOFT COVER STATION

With Ondematic, Fastbind is initiating an innovating concept: the soft cover workstation. Fastbind Ondematic is developed especially to prepare and finish the book covers both in digital and print-on-demand environment. It is optimized to work with Fastbind's new generation of binding machines and is designed to be installed under Fastbind Optima, Elite or Secura perfect binders.

ELECTRIC CREASING MACHINE

Fastbind Ondematic is firstly an electric creasing machine. It easily registers the front of the cover and makes the creases using two precision creasing blades. Ondematic can score almost any paper or cardboard up to 300 g/m² for covers up to A4+ format.

It allows two simultaneous creases with 7 mm distance, in two opposite directions (one up and one down). This feature produces automatically the crease for folding the cover and a sharp groove for a better opening and nicer appearance of the finished book.

ELECTRIC TRIMMER

The uniqueness of this soft cover workstation is the integrated electric trimmer: you prepare, bind and trim your book in one unique place. You gain time and efforts: no more need to move from one equipment location to another. For an easier operation, the creaser and trimmer are activated from the same foot pedal.

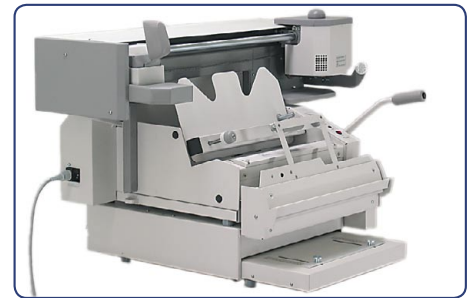

LIGHT VERSION AVAILABLE

If you don't need the electric cover trimmer, you can choose the Fastbind Ondematic Light version. Ondematic Light guarantees a sharp score in card, paper, PVC coated cardboard, and numerous other materials.

SPECIFICATIONS

	Europe	USA
Max. creasing thickness	Up to 300 g/m ² *	Up to 125 index*
Max. creasing width	Up to 325 mm	Up to 12,8"
Width of the front	145 up to 225 mm	5,7 up to 8,9"
Voltage	220-240 V	110-115 V
Frequency/Current	50-60 Hz / 4A	50-60 Hz / 8A
Machine dimensions WxDxH	485 x 675 x 285 mm	19,1 x 26,6 x 11,3"
Weight (net)	32 kg	71 lbs
